Testimonials

Using FlowFit and memoQ **since 2018**

+80 Project Managers

Favorite Features:

- Multi-team feature.
- The project management capabilities.
- The integration with memoQ.

“The usefulness and the flexibility of the tool were some of the main reasons we chose FlowFit with memoQ.”

Patrick Nunes

Why choose FlowFit?

Process automation

Centralized and automated management for enhanced operational efficiency.

Cost reduction

Optimal planning and use of resources to save time and money.

Centralized information

Streamlined access to information for more consistency in project management.

Better collaboration

Easier communication for better comprehension, reducing errors among project stakeholders.

Improved deadline management

Track translation activities and optimize deadline management, avoiding delivery delays.

FlowFit overview

Client Portal

A fully customizable portal for submitting and tracking translation-related requests.

Project management

FlowFit's main portal for managing all aspects of the project, with customization and automation options.

Provider portal

A portal that enables assigned resources to access and work on their tasks and manage their availability and finances.

Integrations

REST API and Webhooks

FlowFit- memoQ integration

- Manual memoQ project creation using templates and filters.
- Automated memoQ project creation using FlowFit virtual coordinator.
- Bi-directional tasks assignment (resource and deadline).
- FlowFit workflows including memoQ and non memoQ tasks.
- memoQ analysis report and weighed words calculation.
- Cost calculation with memoQ price matrix
- Document versioning with Xtranslate
- memoQ Slices
- memoQ packages access
- Translated/revised documents automatic attachment to tasks.
- Possibility to open memoQ and memoQ editor desktop or web directly from FlowFit
- FlowFit retrieves % of completion of memoQ tasks and computes resources workload.

memoq

Competitive advantages

Flexibility and Scalability

Extensive customization capabilities, allowing the solution to be tailored to the specific needs of each client with scalable architecture that ensures it can handle projects of varying sizes and complexities with ease.

Subject Matter Expertise

Leveraging the combined strengths of Consoltec's linguistic project management and memoQ's translation expertise, we deliver a perfect, complete solution through many successful joint deployments.

Customer Care and Support

We provide a single point of contact for support, streamlining communications between teams and ensuring efficient resolution of any issues.

Security and Compliance

We adhere to core cybersecurity practices, including encryption and access controls, to protect sensitive customer information and content, ensuring security and compliance at all times.
